Lincoln (Mass.). Town Clerk.

Historical/Biographical Notes

A petition to the Governor and General Court in 1746 from the inhabitants of the easterly part of Concord, the westerly part of Lexington, and the northerly part of Weston requested to be set off from their respective towns in order to have a more convenient location for worship. A Precinct was established, which gave the inhabitants ecclesiastical independence and the authority to build a meeting house and hire a minister, and to tax themselves for ministerial support. The new Precinct was legally identified as the Second Precinct of Concord, Lexington, and Weston. A subsequent petition led to the incorporation of the Town of Lincoln in 1754, encompassing approximately the area formerly the Second Precinct. As a Town, Lincoln had the rights and responsibilities to fund the meeting house and clergy of the established church, build and maintain highways, assess property for taxes, provide public education and care of the Town's poor, and other municipal obligations. Evolution of Town government over 250 years has increased the number and kind of municipal services provided by Towns in Massachusetts. By statute, municipal officials are required to generate and retain permanently a large number of records of the activities of the several municipal offices, boards, departments, etc.

Scope and Content

The collection comprises the permanent records of the Town of Lincoln from its incorporation as a Town in 1754 to the present, as required by statute, and the permanent records of the Second Precinct from 1746 to 1754.

The collection is arranged in accordance with the records schedules promulgated by the Supervisor of Public Records, Office of the State Secretary, Commonwealth of Massachusetts.
